THE BRITISH JOURNAL OF NON-DESTRUCTIVE TESTING

VOLUME 28 1986

The British Journal of Non-Destructive Testing is published by
The British Institute of Non-Destructive Testing, 1 Spencer Parade, Northampton NN1 5AA, England
Telephone: Northampton (0604) 30124 (answering service) *Telex:* 31612 OTSSG

Vol. 28 1986

INDEXES

KEY TO ISSUES:

Number 1 January	**1-64**
Number 2 March	**65-124**
Number 3 May	**125-204**
Number 4 July	**205-268**
Number 5 September	**269-340**
Number 6 November	**341-412**

REGULAR FEATURES AND SHORT TITLES

Annual Conference Report 385
Annual Report 1985 195
Book Reviews
NDT in the Fitness for Purpose Assessment of Welded Constructions (Conference Proceedings) 39
Post-yield Fracture Mechanics. D.G.H. Latzko 39
Photoelasticity in Engineering Practice. S.A. Paipetis: G.S. Holister 159
International Advances in NDT, Vol 11 232
Catalogue of English Translations of German Standards., 1986 313
Integrated Product Testing and Evaluation; a Systems Approach to Improved Reliability and Quality. Vol.6 revised 380

COMRAD 34, 63, 412

Comment 3, 67, 127, 207, 273, 345

Correspondence 3, 67, 127, 158, 207, 273

Education and training 337

Engineering Council 58, 189, 267, 334

4th European Conference 1987 ..... 277, 349

8th Materials Testing Exhibition 100, 176

In Other Journals 41, 95, 160, 234, 314, 381

Institute News 57, 116, 187, 262, 330, 406

Minitests 35, 172, 316

Membership 57, 116, 187, 262, 330

NDT Bookcase 39, 159, 232, 312, 380

NDT Newsdesk 44, 97, 168, 246, 320, 394

Neutron Radiography Newsletter 39, 93, 312

Rules of Conduct for Members 62

Standards News 42, 95, 159, 234, 314, 381

Symposium Reports.
Fracture mechanics and offshore inspection are they compatible ? . 37
SNT-TC-1A within a quality system 166
Microfocus - minifocus radiography 242
Echo evaluation and defect sizing in ultrasonic NDT 242
Electromagnetic acoustic transducers and their applications 244
The ultrasonic testing of austenitic materials 319
Workshop composites from inception to inspection 319
Non-destructive characteristion of materials 391
Composites from inception to inspection 391

Trade literature 41, 95, 159, 234, 313, 381

University Communiqué 162

AUTHOR INDEX

Baldev Raj (with Lopez E.C., Rao C.B. and Bhattacharya D.K.)
Measurement of focal spot in microfocal radiography 299

Becker R. (with Betzold K., Boness K.D., Collins R., Holt C.C. and Simkin J.)
The modelling of electrical current NDT methods; its application to weld testing.
Part 1 286
Part 2 361

Bergen L.A. (with dos Reis H.L.M. and Bucksbee J.H.)
Adhesive bond strength quality assurance using acousto-ultrasonic technique 357

Betzold K. (with Becker R., Boness K.D., Collins R., Holt C.C and Simkin J.)
The modelling of electrical current NDT methods, its application to weld testing.
Part 1 286
Part 2 361

Bhattacharya D.K. (with Baldev Raj., Lopez E.C. and Rao C.B)
Measurement of focal spot in microfocal radiography 299

Bindal V.N (with Kumar A)
A calibration block for the characterisation of ultrasonic surface wave probes 80

Bogue R.W.
New project to promote NDT awareness amongst smaller manufacturers 308

Boness K.D. (with Becker R., Betzold K., Collins R., Holt C.C. and Simkin J.)
The modelling of electrical current NDT methods, its application to weld testing.
Part 1 286
Part 2 361

Bridge B.
The performance of the human eye in relation to the examination of film: A new appraisal 278

Bridge B
Compton scatter imaging with low strength sources for the inspection of small components or continuous monitoring applications 216

Bucksbee J.H. (with dos Reis H.L.M. and Bergen L A)
Adhesive bond strength quality assurance using acousto-ultrasonic technique 357

Collins R. (with Becker R., Betzold K., Boness K.D., Holt C.C. and Simkin J.)
The modelling of electric current NDT methods, its application to weld testing.
Part 1 286
Part 2 361

Glennie A.M.G. (with Summerscales J.)
Acoustic emission source location in orthotropic materials 17

Goode D. (with Wong B.S.)
A computer program to generate radiographic techniques 302

Granville R.K. (with Taylor J.L.)
Improvement in signal-to-noise ratio during the ultrasonic testing of titanium alloys 228

Halmshaw R.
Visit to India 193

Hamlett R.A. (with Lavender D.H.)
Standardisation within the writing of NDT procedures 359

Harper H. (with Short K.A.)
Automated ultrasonic inspection in the UK power industry 140

Heidt H. (with Nabel E. and Stade J.)
Comparison of microfocus X-ray units 133

Herbert R.G.
Computer techniques applied to the routine analysis of rundown vibration data for condition monitoring of turbine alternators. .. 371

Holroyd T.J.
Practical applications of acoustic emission technology 224

Holt C.C. (with Becker R., Betzold K., Boness K.D., Collins R. and Simkin J.).
The modelling of electrical current NDT methods, its application to weld testing.
Part 1 286
Part 2 361

Ishii Y. (with Onozawa M.)
The industrial application of improved narrow-beam probes for ultrasonic inspection..... 23

Kumar A. (with Bindal V.N.)
A calibration block for the characterisation of ultrasonic surface waves probes 80

Lavender D.H. (with Hamlett R.A.)
Standardisation within the writing of NDT procedures 359

Leonard R.A. (with Thompson W.T.)
Vibration and stray flux monitoring for unbalanced supply and inter-turn winding fault diagnosis in induction motors 211

Lopez E.C. (with Rao C.B., Bhattacharya D.K., Baldev Raj)
Measurements of focal spot in microfocal radiography 299

McFarland D.M. (with dos Reis H.L.M.)
On the acoustic-ultrasonic non-destructive evaluation of wire rope using the stress wave factor technique 155

Morley G.R.
Condition monitoring techiques used on British Rail diesel engines 295

Nabel E (with Heidt H. and Stade J.)
Comparison of microfocus X-ray units 133

Onozawa M. (with Ishii Y.)
The industrial application of improved narrow-beam probes for ultrasonic inspection 23

Parish R.W. (with Rockett P.)
A wide-energy range, high-resolution microfocal X-ray source .. 84

Pattison J.E.K. (with Shackleton D.N. and Skirving N.)
Performance of ultrasonic inspection in thick walled pressure vessel fabrication 27

Rao C.B. (with Lopez E.C., Bhattacharya D.K. and Baldev Raj)
Measurement of focal spot in microfocal radiography 299

dos Reis H.L.M. (with McFarland D.M.)
On the acoustic-ultrasonic non-destructive evaluation of wire rope using the stress wave factor technique..... 155

dos Reis H.L.M. (with Bergen L.A. and Bucksbee J.H.)
Adhesive bond strength quality assurance using acousto-ultrasonic technique 357

Rockett P. (with Parish R.W.)
A wide-energy range, high-resolution microfocal X-ray source .. 84

Saunders I
The ramifications of Section 6 of the AWS D1.1 structural welding code for ultrasonic testing 306

Shackleton D.N. (with Pattison J.E.K. and Skirving N.)
Performance of ultrasonic inspection in thick walled pressure vesse! fabrication 27

Short K.A. (with Harper H.)
Automated ultrasonic inspection in the UK power industry 140

Simkin J. (with Becker R., Betzold K., Boness K.D., Collins R. and Holt C.C.)
The modelling of electrical current NDT methods, its application to weld testing.
Part 1 286
Part 2 361

Skirving N. (with Shackleton D.N. and Pattison J.E.K.)
Performance of ultrasonic inspection in thick walled pressure vessel fabrication 27

Smith B.J.
Zipscan - a new concept in ultrasonic instrumentation..... 9

Smith R.L.
The evaluation of NDT techniques for abrasive wheels..... 73

Stade J. (with Nabel E. and Heidt H)
Comparison of microfocus X-ray units 133

Summerscales J. (Glennie A.M.G.)
Acoustic emission source location in orthotropic materials..... 17

Taylor J.L. (with Granville R.K.)
Improvement in signal-to-noise ratio during the ultrasonic testing of titanium alloys 228

Temple J.A.G.
Predicted ultrasonic responses for pulse-echo inspections.....145

Thompson W.T. (with Leonard R.A.)
Vibration and stray flux monitoring for unbalanced supply and inter-turn winding fault diagnosis in induction motors..... 211

Wong B.S.(with Goode D.)
A computer program to generate radiographic techniques 302

SUBJECT INDEX

ACOUSTIC EMISSION
Acoustic emission source location in orthotropic materials
A.M.G.Glennie.; J.Summerscales..... 17
Practical applications of acoustic emission technology.
T.J.Holroyd..... 224
On the acousto-ultrasonic non-destructive evaluation of wire rope using the stress wave factor technique.
H.L.M.dos Reis; D.M.McFarland..... 155

ADHESIVE BONDING INSPECTION
Adhesive bond strength quality assurance using acousto-ultrasonic technique.
H.L.M. dos Reis; L.A.Bergen; J.H.Bucksbee 357

APPLICATIONS
Condition monitoring techniques used on British Rail diesel engines.
G.R.Morley..... 295
The evaluation of NDT techniques for abrasive wheels.
R.L.Smith 73

COMPTON SCATTER IMAGING.
Compton scatter imaging with low strength sources for inspection of small components or continuous monitoring
B.Bridge..... 216

CONDITION MONITORING
Computer techniques applied to the routine analysis of rundown vibration data for condition monitoring of turbine alternators.
R.G. Herbert 371
Vibration and stray flux monitoring for unbalanced supply and inter-turn winding fault diagnosis in induction motors.
R.A. Leonard; W.T. Thompson 211
Condition monitoring techniques used in British Rail diesel engines.
G.R. Morley 295

ELECTRICAL METHODS
The modelling of electrical current NDT methods: its application to weld testing. Parts 1 & 2.
R. Becker; K. Betzold; K.D. Boness; R. Collins; C.C. Holt; 286
J. Simkin 361

NDT AWARENESS
New project to promote NDT awareness amongst smaller manufacturers.
R.W.Bogue 308

RADIOLOGY
Compton scatter imaging with low strength sources for inspection of small components or continuous monitoring
B. Bridge 216

The performance of the human eye in relation to the examination of film: A new appraisal.
B. Bridge 278
X-ray real time imaging for weld inspection: IIW progress report No.1..... 89

RADIOGRAPHY
Measurement of focal spot in microfocal radiography
E.C. Lopez; C.B. Rao; D.K. Bhattacharya; Baldev Raj..... 299
Comparison of microfocus X-ray units
E. Nabel; H. Heidt; J. Stade 133
A wide-energy range, high resolution microfocal X-ray source
P. Rockett; R.W. Parish 84
A computer program to generatc radiographic techniques
D. Goode; B.S. Wong..... 302

REPORT WRITING
Standardisation within the writing of NDT procedures
R.A. Hamlett; D.H. Lavender 359

REVIEWS
A look ahead at non-destructive testing
R.C. McMaster..... 351

STRAY FLUX METHODS
Vibration and stray flux monitoring for unbalanced supply and inter-turn winding fault diagnosis in induction motors
R.A. Leonard; W.T. Thompson 211

ULTRASONIC TESTING
A calibration block for the characterisation of ultrasonic surface wave probes
V.N. Bindal; A. Kumar
Improvement in signal-to-noise ratio during the ultrasonic testing of titanium alloys 80
R.K. Granville; J.L. Taylor 228
Automated ultrasonic inspection in the UK power industry
H. Harper; K.A. Short 140
The industrial application of improved narrow-beam probes for ultrasonic inspection
M. Onazawa; Y. Ishii..... 23
The ramifications of Section 6 of the AWS D1.1 structural welding code for ultrasonic testing
I. Saunders..... 306
Performance of ultrasonic inspection in thick walled pressure vessel fabrication
D.N. Shackleton; J.E.K. Pattison; N. Skirving..... 27
Zipscan -- a new concept in ultrasonic instrumentation
B.J. Smith 9
Predicted ultrasonic responses for pulse-echo inspections
J.A.G. Temple 145

VIBRATION
Vibration and stray flux monitoring for unbalanced supply and inter-turn winding fault diagnosis in induction motors
R.A. Leonard; W.T. Thompson 211
Computer techniques applied to the routine analysis of run-down vibration data for condition monitoring of turbine alternators
R.G. Herbert 371

VISUAL PERFORMANCE
The performance of the human eye in relation to the examination of film; A new appraisal
B.Bridge..... 278

WELD TESTING
The modelling of electrical current NDT methods,its application to weld testing. Parts 1 & 2
R. Becker; K. Betzold; K.D. Boness; R. Collins; C.C. Holt; 286
J Simkin 361
The ramifications of section 6 of the AWS D1.1 structural welding code for ultrasonic testing
I.Saunders 306

X-RAY REAL TIME IMAGING
X-ray real time imaging for weld inspection: IIW progress
Report No.1 89
